Mehrdad Aksari Mahabadi

mak.mahabadi@gmail.com mehrdad3301.github.io linkedin.com/in/mehrdad-aksari-mahabadi
github.com/mehrdad3301

Interests

- Deep Learning
- Trustworthy Machine Learning
- Graph Representation Learning
- Large Language Models
- Bioinformatics
- Database Systems

Education

Amirkabir University of Technology (Tehran Polytechnique) *2020 - 2025*
BS in Computer Science
GPA: 18.71 / 20

Shahid Sattari High School *2017 - 2020*
Affiliated with National Organization for the Development of Exceptional Talents
Diploma in Mathematics & Physics

Experience

Sharif University *Undergraduate Research Assistant* *Jul 2024 - Present*
Worked on backdoor attacks under the supervision of Dr. Rohban and Dr. Soleymani. We developed a simple multi-trigger attack that can bypass Anti-Backdoor Learning, a state-of-the-art defense.

Amirkabir University *Undergraduate Research Assistant* *Sept 2023 - Dec 2023*
Studied machine learning with graphs under the supervision of Dr. Rahmati. Our primary focus was on knowledge graph embeddings and their applications within drug interaction networks.

Snapp *Software Engineer* *Jan 2023 - March 2024*
Snapp is the leading company in providing online taxi services with over 30 million users in Iran. As part of the Routing team, we were responsible for providing estimated time of arrival (ETA) and navigation services.

- Added a post-processing procedure to the map matching algorithm, which significantly improved coverage.
- Integrated traffic speeds into routing algorithms, enabling time-dependent routing.
- Redesigned ETA benchmarking service leveraging concurrency, which increased throughput by x10.

Honors & Awards

Fall 2022	Ranked among **top 3** students between 70 students who began their studies in Sep. 2020 at Amirkabir University of Technology, Dept. of Comp. Sci. and consequently recognized as an **outstanding** student.
Spring 2021	Eligible to choose a **second major** due to outstanding performance.
Sept 2020	Ranked among the **top 2%** between all applicants in the University Entrance Nationwide Exam known as Konkur (approximately 150,000 applicants).

Teaching Experience

Computational Geometry, Dr. Rahmati *Fall 2024*
Numerical Linear Algebra, Dr. Dehghan *Fall 2024*
Fundamentals of Programming, Dr. Rahmati *Fall 2023*
Algorithm Design & Analysis, Dr. Seyed Djavadi *Fall 2022*

Notable Projects

JNotes *link*

Implementation of a diverse array of deep learning algorithms in Pytorch, Including GAN, VAE, DDPM, LSTM, and GPT architectures, along with applications of CLIP, DINO, and StableDiffusion.

Evolucopter *link*

An evolutionary agent that masters a simplistic helicopter game using genetic algorithms and neural network.

Diffnet *link*

A tiny neural network framework that works with reverse mode automatic differentiation.

Xv6 *link*

A fork of xv6 operating system that supports copy-on-write and lazy page allocation.

Coyote *link*

A routing engine that uses Dijkstra, A*, and ATL algorithms to compute the shortest path on a road network.

Camel *link*

An interpreted programming language that supports arrays, dictionaries, functions, and closures.

Notable Course Reports

Introduction to Fuzzy Linear Algebra *report for Numerical Linear Algebra course in Farsi*
Used Sympy to solve fuzzy linear systems with Gaussian and Jacobian iterative methods *Link*

Bounds for the Pancake Problem *report for graduate course in bioinformatics algorithms*
introduced genome rearrangement and its connection to sorting by prefix reversal problem. *link*

Online Courses

Machine Learning Specialization, Standford University
Machine Learning with Graphs, Standford University
Deep Learning, Sharif University
Security & Privacy in Machine Learning, Sharif University
Intro. to Database Systems, Carnegie Mellon University

Technical Skills

- **Languages** Python, Go, Java, C
- **AI** PyTorch, PyTorch Geometric, Jax, HuggingFace, Numpy, Pandas, Matplotlib
- **Database** Postgresql, Redis
- **Cloud/MLOps** Docker, Kubernetes
- **Tools** Git, Jupyter Notebook, Vim, VsCode

Languages

- **Farsi** native
- **English** Full Proficiency, Toefl iBT 111(reading 28, listening 28, speaking 27, writing 28)
